DETAILED ACTION

Priority

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Information Disclosure Statement

The information disclosure statements (IDS) submitted on May 4, 2005 and January 19, 2007 were filed before the mailing date of the first action on the merits. The submissions are in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statements have being considered by the examiner.

Allowable Subject Matter

Claims 1-5 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach a method for a cooperative aircraft with a flight management computer linked by a data transmission link to a control authority to follow the course of a flight plan, the flight plan being known to the control authority and including a chaining of waypoints associated with local flight constraints defining a trajectory skeleton. The method comprising the steps of: the control authority employing the flight plan to estimate the instantaneous position of the aircraft; the flight management computer constructing, on the basis of the trajectory skeleton and of the travel schedule specified in the flight plan, an effective trajectory with softened lateral and vertical transitions, dimensioned so as to take account of the maneuvering capabilities of the aircraft and of

a comfort instruction, and tagged by means of pseudo -waypoints associated with local flight constraints, the position of a pseudo -waypoint marking the start of a transition and the associated local flight constraints defining the properties of the transition, said method being characterized in that the flight management computer of the aircraft calculates the locations of the projections of the pseudo -waypoints onto the trajectory skeleton specified in the flight plan and communicates them via the data transmission link to the control authority which uses them to improve its estimate of the instantaneous position of the aircraft.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure, see attached PTO-892.
